## Supermarkets with Style

MPREIS is a chain of grocery stores in Austria that have some very unique architecture. Each of the seven locations are designed to be different, and they're far from the typical dull square box that most supermarket chains normally go with. But it isn't just the [exterior](#) architecture that's interesting, the interiors also offer a much more stylish shopping experience than the average supermarket.

the designs are amazing..! (micah)

Going to Austria again, this summer holiday and specially Mpreis has quite nice designed [supermarkets](#). The supermarket I've been isn't in this list, but is quite the same style. (N. Rikken)

Shopping as it should be! (Eamonn Neeson)
